Territory Opportunity Brief

Testershire (local authority) - generated 24 October 2026

Prepared for order resolved-test

Opportunity window: 13 June 2026 to 10 September 2026 (90 days)

Organisations considered: 8 Shortlisted: 8 Territory locations in source: 30

Source: CQC public register edition 2026-09-10. Product: Territory Opportunity Brief (GBP 745).

Contents: sections 1-7 are the executive brief; Appendix A carries the reason and evidence for every shortlisted organisation.

1. Executive summary

8 location(s) in Testershire are in the provider group 'Currently rated Requires improvement' on the source edition dated 10 Sep 2026; 8 are shortlisted and ranked.

Shortfall: this territory has 8 organisation(s) with a supported signal in the window, fewer than the requested shortlist of 30. All of them are included; none have been added to make up the number.

Territory	Testershire (local authority)
Date generated	2026-10-24
Source edition	2026-09-10
Window	2026-06-13 to 2026-09-10
Opportunity set	8
Shortlisted & ranked	8
Movement in window	8 location(s) with the selected current rating

Highest-ranked organisations:

- Eskdale House Supported Living Service Ltd (Eskdale House Supported Living Service) - current rating
- St Stephens Nursing Home Ltd (St Stephens Nursing Home) - current rating
- Angel Home Care Service Private Limited Ltd (Angel Home Care Service Private Limited) - current rating

Limitations: Reflects the published CQC register edition, not a live lookup; opportunity signals show where to look first, not provider quality or intent.

2. Ranked opportunity shortlist

Ranked by a deterministic opportunity score (see section 6). Every row carries a stated reason and links to the underlying CQC record. The same source data always produces this same order.

#	Organisation / location	Area	Primary signal	Score
1	Eskdale House Supported Living Service Ltd Eskdale House Supported Living Service	Testershire	Current rating 2026-06-03	47
2	St Stephens Nursing Home Ltd St Stephens Nursing Home	Testershire	Current rating 2026-05-20	47

7	Rose Court Care Home Ltd Rose Court Care Home	Testershire	Current rating 2025-08-12	45
8	The Chesser Surgery Ltd The Chesser Surgery	Testershire	Current rating 2025-01-09	45

3. How the shortlist was built

Each organisation reached this list because of at least one supported event in the window: a new CQC registration, an overall rating change, or a newly published inspection report. The opportunity score combines the event type, how recent it is, the direction of any rating move, the size of the location, and whether the same provider has several locations moving at once. Appendix A gives the full reason and the evidence for every organisation, in rank order.

4. Territory insights

Aggregate view of the whole opportunity set (not just the shortlist).

Events by type rating_current: 8

Rating moves 0 downgrades, 0 upgrades

New beds entering market 0

Service-type mix in the opportunity set:

Service type	Organisations
Care home service without nursing	8

No single provider has more than one location moving in this window.

5. Recommended next actions

Practical, evidence-bounded. These are based on the signals in this brief and do not assume any provider is in difficulty or seeking a supplier.

1. Verify each organisation's current status on the linked CQC page before outreach - this brief reflects the published register edition, not a live lookup.

6. Methodology and data notes

- Scope: local authority = Testershire. Provider group: Currently rated Requires improvement, taken from the same directory query as the coverage check; each member carries its documented group state as evidence. Window: 2026-06-13 to 2026-09-10 inclusive (90 days), anchored to the newest source date.
- Supported events: new CQC registration in-window (excluding dormant locations); overall rating change in-window (derived from ordered historic/current ratings); new inspection report in-window where no change can be derived.
- Score recency is measured against generation, not the source window. Score = base weight per event x recency multiplier (1.5 within 30 days, 1.2 within 90, 1.05 within 180) + rating-direction adjustment (downgrade +16, upgrade +9) + a bed-count size factor + a provider-cluster bonus where the same provider has multiple locations moving. Scores are capped at 100.
- One location represents each provider: highest score, then most recent event date, then organisation name, then lexicographically smallest CQC location id. Deduplication happens before the shortlist limit. Ties break by those same keys, so the same source data always yields the same ranking.

7. Limitations and disclaimer

- Ratings are resolved across CQC's API and its published ratings file (editions: 2026-10-02 (sha256 aba66fd8ca20)). 2 location(s) with conflicting evidence are shown without a rating; 1 inherited rating(s) are labelled and never treated as current inspections. A ratings-file value is never reported as a rating change.
- Only CQC-dated rating movements are counted.
- Rating freshness is measured against the generation date, separately from the source window. Stale RI records remain visible in evidence coverage, outside the shortlist when they have no in-window signal. Missing metadata describes the supplied snapshot, not a claim that CQC never published it.
- This brief reflects the published CQC register edition dated 2026-09-10 (the newest date present in the source), not a live API lookup.
- The register carries the latest rating and its report date. Where no rating history is present a change cannot be derived, so a first/refreshed rating is reported as a new inspection report rather than a rating change.
- Organisations with incomplete provider identifiers or names in the source are excluded from the shortlist rather than shown with gaps.
- Opportunity signals indicate where to investigate first; they are not statements about a provider's quality, finances, or intent.
- Contains public sector information licensed under the Open Government Licence v3.0.

CareGist is independent of the Care Quality Commission. This brief is compiled from the published CQC register and is provided for business research. It is not regulatory, legal, financial, or investment advice, and it makes no statement about any provider's quality, solvency, or intentions. Opportunity signals indicate where a buyer may wish to investigate first. Verify every organisation's current status directly with CQC before acting. Appendix C. Rating provenance

Every rating in this brief is resolved across CQC's public API and CQC's published ratings file, keeping both values and their publication dates. The most recently published value is shown; a value inherited from a predecessor registration is labelled and never counted as a current inspection; conflicting evidence is not shown. Status counts across the territory: current: 22, inherited from a predecessor registration: 1, no published rating: 5, conflicting evidence - not shown: 2.
