### 3. How the shortlist was built

Each organisation reached this list because of at least one supported event in the window: a new CQC registration, an overall rating change, or a newly published inspection report. The opportunity score combines the event type, how recent it is, the direction of any rating move, the size of the location, and whether the same provider has several locations moving at once. Appendix A gives the full reason and the evidence for every organisation, in rank order.

### 4. Territory insights

Aggregate view of the whole opportunity set (not just the shortlist).

**Events by type** new\_registration: 38  
**Rating moves** 0 downgrades, 0 upgrades  
**New beds entering market** 105

Activity by sub-area:

| Area       | Qualifying events |
|------------|-------------------|
| South East | 38                |

Service-type mix in the opportunity set:

| Service type                      | Organisations |
|-----------------------------------|---------------|
| Domiciliary care service          | 17            |
| Supported living service          | 8             |
| Dental service                    | 6             |
| Doctors treatment service         | 3             |
| Care home service without nursing | 3             |
| Community healthcare service      | 3             |

Providers with more than one location moving (account-level opportunities):

- Care Quality Services Limited - 2 locations

## 5. Recommended next actions

Practical, evidence-bounded. These are based on the signals in this brief and do not assume any provider is in difficulty or seeking a supplier.

1. Contact the 38 newly registered location(s) first: they have no incumbent supplier and are setting up policies, training and systems now. The shortlist marks each one and links its CQC record.
2. Treat Care Quality Services Limited as an account, not a lead: multiple of their locations are moving in this window, so target the provider's central quality lead.
3. Verify each organisation's current status on the linked CQC page before outreach - this brief reflects the published register edition, not a live lookup.

## 6. Methodology and data notes

- Scope: local authority = Southampton. Window: 2025-02-19 to 2026-02-18 inclusive (365 days), anchored to the newest source date.
- Supported events: new CQC registration in-window (excluding dormant locations); overall rating change in-window (derived from ordered historic/current ratings); new inspection report in-window where no change can be derived.
- Score = base weight per event x recency multiplier (1.5 within 30 days, 1.2 within 90, 1.05 within 180) + rating-direction adjustment (downgrade +16, upgrade +9) + a bed-count size factor + a provider-cluster bonus where the same provider has multiple locations moving. Scores are capped at 100.
- Ties break by most recent event date, then organisation name, then CQC location id, so the same source data always yields the same ranking.

## 7. Limitations and disclaimer

- This brief reflects the published CQC register edition dated 2026-02-18 (the newest date present in the source), not a live API lookup.
- The register carries the latest rating and its report date. Where no rating history is present a change cannot be derived, so a first/refreshed rating is reported as a new inspection report rather than a rating change.
- Organisations with incomplete provider identifiers or names in the source are excluded from the shortlist rather than shown with gaps.
- Opportunity signals indicate where to investigate first; they are not statements about a provider's quality, finances, or intent.
- Contains public sector information licensed under the Open Government Licence v3.0.

*CareGist is independent of the Care Quality Commission. This brief is compiled from the published CQC register and is provided for business research. It is not regulatory, legal, financial, or investment advice, and it makes no statement about any provider's quality, solvency, or intentions. Opportunity signals indicate where a buyer may wish to investigate first. Verify every organisation's current status directly with CQC before acting.
