

SOFTWARE VENDOR PILOT OFFER

Qualified demos, clearly defined.

01

A governed redesign of the supplied pilot offer. Commercial terms and source wording remain unapproved drafts for verification and review.

Review copy only. Do not quote, accept, send, publish or use for pricing. UK Country Pack verification, claim evidence, independent QA and Human Gate 2 are outstanding.

SUPPLIED DRAFT PROPOSITION

What the source says you are buying

An attended, qualified product demo with a new care provider. Every appointment we book is backed by a documented audit. "Qualified" means all four of the following, evidenced in a pre-demo brief sent to you 48 hours in advance:

The four supplied qualification criteria

ALL FOUR REQUIRED

01

Documented need

The provider has confirmed care management software as a live purchase need in a recorded audit call.

02

Decision-maker present

The registered manager, nominated individual or director attends the demo in person or by video.

03

Budget stated

An indicative monthly budget has been stated and falls within your published pricing.

04

90-day purchase window

The provider intends to select a platform within 90 days, mapped to their CQC registration or inspection timeline.

Supplied replacement condition: If any of the four criteria turn out not to hold, or the provider does not attend, the appointment is not billable and is replaced free of charge. You only pay for demos that happen with people who meet the definition.

Before this can become an offer

CONTROL GATES

Evidence

Validate every objective claim and operational promise against approved sources.

Approval

Independent QA must be separate from production, followed by Human Gate 2.

SUPPLIED COMMERCIAL SCHEDULE

Pilot terms for review.

02

Values below reproduce the supplied draft. They are not a quotation, price approval, tax position or commitment.

!

Draft supplied terms. Pricing authority has not been verified. Do not transact, invoice, promise exclusivity or present VAT treatment as approved.

Pilot pricing

SOURCE TERMS PRESERVED

Commercial schedule transcribed from supplied source artwork; all entries are unapproved drafts.

Term	Pilot terms (first 10 weeks)	Standard terms (post-pilot)
Setup / onboarding fee	£0	£0
Price per attended qualified demo	£175 + VAT	£250 + VAT
Volume commitment	Minimum 5 demos	Monthly cap agreed by category
Conversion bonus (optional)	None — flat fee only	10% of first-year contract value, self-reported quarterly
Category exclusivity	Not available	Earned at ≥25% demo-to-trial conversion; +£95 per demo premium
Payment terms	Invoiced fortnightly, 14 days	Invoiced monthly, 14 days

SOURCE WORDING RETAINED FOR VERIFICATION — NOT CLEARED FOR VENDOR USE

Every month, new care providers in England move through registration and must choose a care management platform before their first inspection. They are actively in-market, unbranded, and unreachable through your normal channels — they don’t attend trade shows yet, they aren’t on switch-vendor lists, and by the time they appear in public data they have already bought. CareGist works with these providers from pre-registration onwards through a structured Launch Procurement Audit, which means we know what they need, their budget, and their decision deadline before you ever pick up the phone.

Why the price is fair — the market context: Generic UK pay-per-appointment providers charge anywhere from £20 for unqualified bookings to £200+ for complex B2B, and fully qualified, decision-maker-verified B2B meetings trade internationally at £240–£600 each. Our pilot rate of £175 sits deliberately below the qualified-meeting market despite being higher-intent than anything a generic agency can produce, because we want conversion data as much as you do.

Compact claim register

PUBLICATION BLOCKERS

C-01 · Market / timing assertions

Unverified. Provider volume, buying stage, channel reachability and inspection timing require approved evidence.

C-02 · Qualification / delivery

Unverified. Audit records, 48-hour briefs, decision-maker attendance and replacement operation require proof.

C-03 · Price comparison

Unverified. £20–£200+ and £240–£600 benchmarks require dated, like-for-like sources and legal review.

C-04 · Commercial schedule

Unapproved. Price, VAT wording, conversion reporting, exclusivity and payment terms need authorised sign-off.

LAUNCH PROCUREMENT AUDIT · INTERNAL

A useful call, not a forced booking.

03

A structured 45-minute guide for later operational, privacy and legal review. It is not authorised for live outreach or personal-data processing.

Script development only. Do not contact providers, record calls, collect details or share information. UK GDPR wording and process controls have not been approved.

THE SUPPLIED OFFER IN ONE SENTENCE

Launch Procurement Audit

A free 45-minute Launch Procurement Audit that maps every purchase a new provider must make on the road to registration and first placements, sequences it against their CQC timeline, and ends with a written procurement plan plus a curated shortlist for whichever decision is due next.

Supplied operating principle: The audit is genuinely free and genuinely useful even if the provider buys nothing through us. It is also our qualification engine: every supplier appointment CareGist books is backed by an audit, which is what lets us charge suppliers premium rates. Never compromise the audit's honesty to force a booking — the audit relationship is the asset.

The 45-minute call structure

DRAFT SEQUENCE

Supplied call structure. Consent language and data-sharing process require privacy review before any use.

Time	Segment	Purpose
0–5	Frame and consent	Set expectations; get recorded consent to hold their details and share them with shortlisted suppliers only on their instruction (UK GDPR).
5–15	Registration position	Where they are in the CQC process — this anchors every purchase deadline.
15–35	Procurement map	Walk the purchase categories in lifecycle order; capture status, budget and deadline for each.
35–42	Prioritise and commit	Agree the next one or two decisions; offer the shortlist and, if wanted, booked introductions.
42–45	Close	Confirm what they'll receive in writing within 48 hours; book the follow-up trigger point.

Pre-use guardrails

REQUIRED FIRST

- ✓ Approve lawful basis, privacy information, retention, recording and supplier-sharing workflow.
- ✓ Verify every CQC-timeline, purchasing, shortlist, fulfilment and pricing statement.
- ✓ Train staff, test the process and define escalation; do not improvise regulated advice.

DRAFT OUTREACH AND OPENING FRAME

Source copy, held behind the gate.

04

The supplied wording is retained below for verification. Highlighted copy must not be sent, spoken or adapted for live use.

No outreach authorised. Bracketed placeholders must never be populated with personal or provider data in this draft. Claims, privacy wording and service delivery remain unverified.

Outreach message

EMAIL / LINKEDIN · SUPPLIED AS ~90 WORDS

DRAFT SOURCE COPY · DO NOT SEND

Subject: The 14 purchases between you and registration

Hi [name] — congratulations on [service name]'s registration application. Between now and your first placements you'll make around 14 significant purchases — insurance, care software, training, policies, payroll, recruitment — and the sequencing matters as much as the choices: buy in the wrong order and you burn cash before revenue, or worse, hit inspection unprepared.

I run CareGist, a procurement concierge for new providers. We offer a free 45-minute Launch Procurement Audit: you leave with a written purchase plan sequenced against your CQC timeline, and a vetted shortlist for whatever decision is next. No fee, no obligation — suppliers pay us, and only when you choose to meet them.

Worth 45 minutes this week?

Opening frame

SAY THIS, ROUGHLY · AFTER APPROVAL ONLY

DRAFT SOURCE COPY · DO NOT USE

"This call is for you, not for suppliers. In 45 minutes we'll map every purchase between you and your first placements, put them in the right order against your registration timeline, and flag where providers typically overspend or buy too early. You'll get the plan in writing within 48 hours. Where a decision is due soon, I can also give you a shortlist of two or three vetted suppliers — and if you want, book the calls for you. Suppliers pay us a booking fee; you never pay us anything, and nothing goes to any supplier unless you say so. Sound fair?"

Claims and compliance flags

OPEN BLOCKERS

C-05 · "Around 14" / sequencing

Unverified. Count, categories, cash/inspection consequences and typical overspend require evidence.

C-06 · Free / fulfilment promises

Unapproved. "Free", written plan within 48 hours and "you never pay" require operational and legal confirmation.

C-07 · "Vetted" / shortlist

Unverified. Define vetting standard, conflicts, supplier eligibility, monitoring and disclosure.

C-08 · Privacy / introductions

Blocked. UK GDPR references are not a complete consent, recording or data-sharing mechanism.
