Prepared for order SYNTHETIC-BUYING-AUDIT

Opportunity window: 19 February 2025 to 18 February 2026 (365 days)

Organisations considered: 38 Shortlisted: 30 Territory locations in source: 609

Source: CQC public register edition 2026-02-18. Product: Territory Opportunity Brief (GBP 745).

Contents: sections 1-7 are the executive brief; Appendix A carries the reason and evidence for every shortlisted organisation.

1. Executive summary

38 location(s) in Southampton show a supported opportunity signal in the 365-day window ending 18 Feb 2026; 30 are shortlisted and ranked.

Territory	Southampton (local authority)
Date generated	2026-10-09
Source edition	2026-02-18
Window	2025-02-19 to 2026-02-18
Opportunity set	38
Shortlisted & ranked	30
Movement in window	38 new registration(s)

Highest-ranked organisations:

- Care UK Care Services Limited (The Wickets Care Home) - new cqc registration
- Dimensions (UK) Limited (Dimensions Weston Court) - new cqc registration
- Southampton Sea City Partnership (St Mary's Surgery) - new cqc registration

Limitations: Reflects the published CQC register edition, not a live lookup; opportunity signals show where to look first, not provider quality or intent.

2. Ranked opportunity shortlist

Ranked by a deterministic opportunity score (see section 6). Every row carries a stated reason and links to the underlying CQC record. The same source data always produces this same order.

3. How the shortlist was built

Each organisation reached this list because of at least one supported event in the window: a new CQC registration, an overall rating change, or a newly published inspection report. The opportunity score combines the event type, how recent it is, the direction of any rating move, the size of the location, and whether the same provider has several locations moving at once. Appendix A gives the full reason and the evidence for every organisation, in rank order.

4. Territory insights

Aggregate view of the whole opportunity set (not just the shortlist).

Events by type new_registration: 38
Rating moves Recent rating changes unavailable: undated rating evidence cannot measure recency. Dated movements, if any, cover only records with published dates.

New beds entering market 105

Service-type mix in the opportunity set:

Service type	Organisations
Domiciliary care service	17
Supported living service	8
Dental service	6
Doctors treatment service	3
Care home service without nursing	3
Community healthcare service	3

Providers with more than one location moving (account-level opportunities):

- Care Quality Services Limited - 2 locations

5. Recommended next actions

Practical, evidence-bounded. These are based on the signals in this brief and do not assume any provider is in difficulty or seeking a supplier.

1. Review the 38 newly registered location(s) first. The registration date is a research signal only; verify the current record and any explicit supplier need before considering contact. The shortlist links each CQC record.
2. Treat Care Quality Services Limited as an account, not a lead: multiple of their locations are moving in this window, so target the provider's central quality lead.
3. Verify each organisation's current status on the linked CQC page before outreach - this brief reflects the published register edition, not a live lookup.

6. Methodology and data notes

- Scope: local authority = Southampton. Window: 2025-02-19 to 2026-02-18 inclusive (365 days), anchored to the newest source date.
- Supported events: new CQC registration in-window (excluding dormant locations); overall rating change in-window (derived from ordered historic/current ratings); new inspection report in-window where no change can be derived.
- Score recency is measured against generation, not the source window. Score = base weight per event x recency multiplier (1.5 within 30 days, 1.2 within 90, 1.05 within 180) + rating-direction adjustment (downgrade +16, upgrade +9) + a bed-count size factor + a provider-cluster bonus where the same provider has multiple locations moving. Scores are capped at 100.
- One location represents each provider: highest score, then most recent event date, then organisation name, then lexicographically smallest CQC location id. Deduplication happens before the shortlist limit. Ties break by those same keys, so the same source data always yields the same ranking.

7. Limitations and disclaimer

- Recent rating changes unavailable: undated rating evidence cannot measure recency. Dated movements, if any, cover only records with published dates.
- Rating freshness is measured against the generation date, separately from the source window. Stale RI records remain visible in evidence coverage, outside the shortlist when they have no in-window signal. Missing metadata describes the supplied snapshot, not a claim that CQC never published it.
- This brief reflects the published CQC register edition dated 2026-02-18 (the newest date present in the source), not a live API lookup.
- The register carries the latest rating and its report date. Where no rating history is present a change cannot be derived, so a first/refreshed rating is reported as a new inspection report rather than a rating change.
- Organisations with incomplete provider identifiers or names in the source are excluded from the shortlist rather than shown with gaps.
- Opportunity signals indicate where to investigate first; they are not statements about a provider's quality, finances, or intent.
- Contains public sector information licensed under the Open Government Licence v3.0.

CareGist is independent of the Care Quality Commission. This brief is compiled from the published

CQC register and is provided for business research. It is not regulatory, legal, financial, or investment advice, and it makes no statement about any provider's quality, solvency, or intentions. Opportunity signals indicate where a buyer may wish to investigate first. Verify every organisation's current status directly with CQC before acting.
